Prior to use, carefully read the instructions for use.

1. Apply GC Cavity Conditioner (10 sec.) or Dentin Conditioner (20 sec.)
2. Rinse and gently dry.
4. Click once to activate.
5. Mix for 10 sec.

Working time is 1 min., 10 sec. from start of mix.

6. Click twice to prime capsule.

Immediately dispense within 10 sec. after mix.
Pack and contour.
Avoid moisture contamination and dry-out.

7. Final finish after 3 min. from start of mix.

8. Dispense a few drops of G-COAT PLUS.
Close cap immediately.

9. Apply G-COAT PLUS; DO NOT AIR BLOW.

10. Light cure for 20 sec.

*Alternatively, apply GC Fuji varnish (bimix) or GC Fuji Coat LC (light cure)
